

EMC SYNCPLICITY ENTERPRISE EDITION

Unmatched flexibility and control of enterprise files

ESSENTIALS

Built for the enterprise

- Easy to control and track
- Bulk account creation
- Single sign-on integration
- From 25 seats to unlimited
- Reliable, secure cloud storage

Designed for people

- No drag, drop, check-in or check-out required
- One-click sharing with anyone
- True file sync to any device
- Your choice of mobile devices

Source a Single Vendor

- Tested configurations
- Accelerated deployment
- Coordinated product roadmap
- Global 24x7 service and support

Enterprise options

- EMC Isilon on-premise storage
- EMC Atmos on-premise storage
- Connector for Documentum

ENTERPRISE FILE SYNC AND SHARING

Syncplicity Enterprise Edition breaks down barriers and connects teams to make them more productive while keeping corporate data secure in your cloud or ours. With Syncplicity, information can be both anywhere, anytime, on any device, and securely stored, transparent and controlled. Syncplicity is the only online file sync and sharing solution designed to give users a simple, frictionless experience while satisfying the needs of enterprise IT.

With our on-premise storage option, Syncplicity now offers a single vendor enterprise solution from EMC, the global leader in enabling businesses and service providers to transform their operations and deliver information technology as a service.

Solve your mobile access problem

Say yes to the devices people prefer. Syncplicity true file sync puts the right content everywhere it belongs, from desktops to laptops to mobile devices with complete administrative visibility and governance.

- Browse and open any file or folder on any device
- Keep files current with automatic push synchronization
- Enjoy native apps designed for iOS, Android, and Windows 8 phones and tablets
- Apply policies globally across enterprise-owned and personal devices
- Retain control over company files, even on devices you don't control

Give users what they want with the control you need

Tempt people back to enterprise-approved solutions with online file sharing your users can't resist. Intuitive tools make it easy to share any file with anyone--inside or outside the firewall. Complete transparency and flexible policies keep IT in control.

- Users can access and share files instantly
- No extra steps like dragging-and-dropping or uploading files
- Access previous versions and deleted files
- Offline access to favorite files and folders on mobile devices

Reduce risk and maintain compliance

Syncplicity understands the range of requirements IT administrators face and how to match our product to your security architecture. Choose a full cloud-based deployment or keep the storage layer on-premise for the best of both cloud and local service.

- Use single sign on with Active Directory or any SAML-based service, including 2-factor authentication
- Set policies to open or restrict sharing, domain access, and web access
- Gain visibility into usage and audit activities by user, file, folder, or device
- Create accounts in bulk and automate installation
- Secure data in transit, at rest, and on every device
- Remote wipe any file or folder

SPECIFICATIONS

Unlimited users	Start with 25 seat and grow to the whole enterprise
Unlimited devices	Sync to unlimited devices per person
Unlimited storage	Purchase unlimited cloud-based or EMC on-premise storage
No file size limits	Unlimited file size for on-premise or 8GB file size maximum for cloud
Version and deleted file storage	Set policy for unlimited file storage or apply retention policies automatically
Support	Premium online and phone available
Deployment options	Cloud-based or on-premise with EMC Isilon or EMC Atmos
Connector for Documentum	Distribute files from Documentum to mobile devices and beyond the firewall as part of a business workflow
